

FRYER CLEANER

Nonfood Compounds
Program Listed (A2)
#143017

FRYER CLEANER is a low to no-foam maximum strength super concentrate especially developed to clean fryers in bakeries, snack food plants, meat and poultry plants. **FRYER CLEANER** is designed for top performance in circulation, boilout, and soak applications. Removes carbonized grease residue, smoke deposits, burned on food soils, fats, oils and greases from food processing equipment. Formulated for stability at elevated temperatures, **FRYER CLEANER** will not lose its effectiveness at the boil.

FRYER CLEANER penetrates rapidly and works fast to soften and suspend soil so that it can be easily rinsed away. Use as a degreaser or carbon remover for food cooking or smoking equipment, utensils, or other associated surfaces in official establishments operating under the Federal meat, poultry, shell egg grading, and egg products inspection programs. Low foam makes rinsing very easy and complete resulting in a nice sheeting action when rinsed and with shorter drying times.

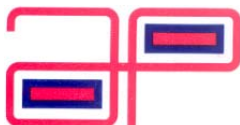

Applications: Fryers, smokehouses, ovens, kettles, scald vats, evaporators, piping, molds, hooks, trolleys

Benefits: NSF registered formulation, #143017
(A2, soak tank, steam / mechanical cleaning)
Low foaming powerful cleaning action
Highly concentrated for diverse uses
Rinses cleanly with no streaking or spotting
No solvents, VOC's, organic or inorganic phosphorus

Use levels: Use 2 oz. – 4 oz. / gallon in circulation clean outs,
6 oz. - 8 oz. / gallon for soak tanks. Potable water rinse required.

Specifications: Appearance: Dark brown colored thin liquid
pH: 13 – 14 as is
Specific gravity: 1.46

Cautions: Safe to use on most surfaces except aluminum and other soft metals, spot check if uncertain. Product is strongly caustic, use proper personnel protection when using.
